

UX Designer & Developer

ANNASTASIA GALANTE

About

I'm a Front End Developer from Colorado Springs, CO, who grew up traveling the country as the daughter of an Air Force officer. I have a background in lean agile software development am extremely passionate about user-centered products.

My current objective is to obtain a full time development position in the Colorado Springs / Denver area that will enable me to put my passion for the user to work.

My hobbies outside of work include photography, riding and repairing my motorcycles, reading, brewing, and camping.

Education

Purdue University - 2012
BS in Computer Graphics Technology

I love coffee, beer, and bourbon- so let's grab a drink and talk!

Work Experience

UX Designer- Humana

April 2013 – Present

I work as a UX designer on both consumer and internal-facing enterprise web apps. I spent 9 months in a lean agile software development practice (Humana's Digital Experience Center) performing full stack design work- from inception, conducting user research and usability testing sessions, wire framing to high fidelity mockups. I've been a part of four mobile apps currently in the iTunes and Google app stores, and every web project is designed with a mobile first strategy..

Graphic Designer - Simply Amish

January 2013 – April 2013

I worked on both print and digital advertising materials while utilizing and defining strict branding guidelines, as well as product photography.

Product Photographer and Web Designer- Steiner Enterprises

May 2012 – September 2012 (Summer Internship)

I was charged with product photography & editing, web advertisements, wordpress, and site architecture.

Web & Design Intern - Purdue Extended Campus

January 2011 – December 2011

Worked on web site development, digital sign development, and various design projects.

Digital Artist - Purdue Envision Center

September 2009 – December 2010

Assigned to various projects, including concept art for video games, texture design, and graphic design.
